Smart Manufacturers

**Creating delightful
experiences every day.**

We are your **Smart Manufacturer***

Our concept of optimising production and product transaction. Traditional manufacturing can be defined as the multi-phase process of creating a product out of raw materials, our smart manufacturing is a subset that employs computer control and high levels of adaptability.

Smart manufacturing takes advantage of leading information and manufacturing technologies to enable flexibility in physical processes and address a dynamic and global market.

Providing you with Smart Service*

We're all about you!

Smart Service mantra forms the very backbone of everything we do. We are self-confessed service addicts, it's our culture, it's the way things are done around here and not just one of the team carrying a 'Customer Service' badge.

From concept to completion, we remove friction from your process of specifying and procuring office furniture. We take a very human-to-human approach, providing reliable support at every step enabling you to give your clients the very best experience.

Information

Finishes

MFC Finishes

The majority of the Moventi furniture portfolio is available in a choice of 12 MFC (melamine faced chipboard) colours. We use 18mm and 25mm panels as standard.

Contrasting panel and edge finishes can be mixed in all combinations.

Most top panels are available with an acrylic ply effect edging. This option carries a surcharge of £15 RRP per top.

Please Note: Where a table top is split into 2 or more sections it is not possible to match the grain pattern from one panel to the next.

Real Wood Veneer Finishes

Please contact us for information on colours, prices and lead-times on real wood veneer finishes.

Solid Wood Finishes

A number of our ranges feature solid wood materials. As with all natural materials variations occur.

Plywood Finishes

Some of our ranges are available with plywood tops. We use 18mm and 24mm panels as standard and these panels can be lacquered or laminated.

MFMDF Finishes

A small handful of our ranges are now available with MFMDF (melamine faced MDF) tops. These feature a chamfered edge and are available in 25mm.

Guarantee

Whilst Moventi strive to manufacture products to the highest standards we undertake to repair or replace any structural element which proves to be faulty, when used in normal office conditions, within 5 years of manufacture.

Digital Resources

Please visit www.moventi.co.uk/resources/ for images, CAD files (including BIM models) and specification sheets.

Quality & Environmental

BS EN ISO 9001:2008

Our commitment to quality management at all stages of design and manufacture are recognised in our BS EN ISO 9001:2008 accreditation.

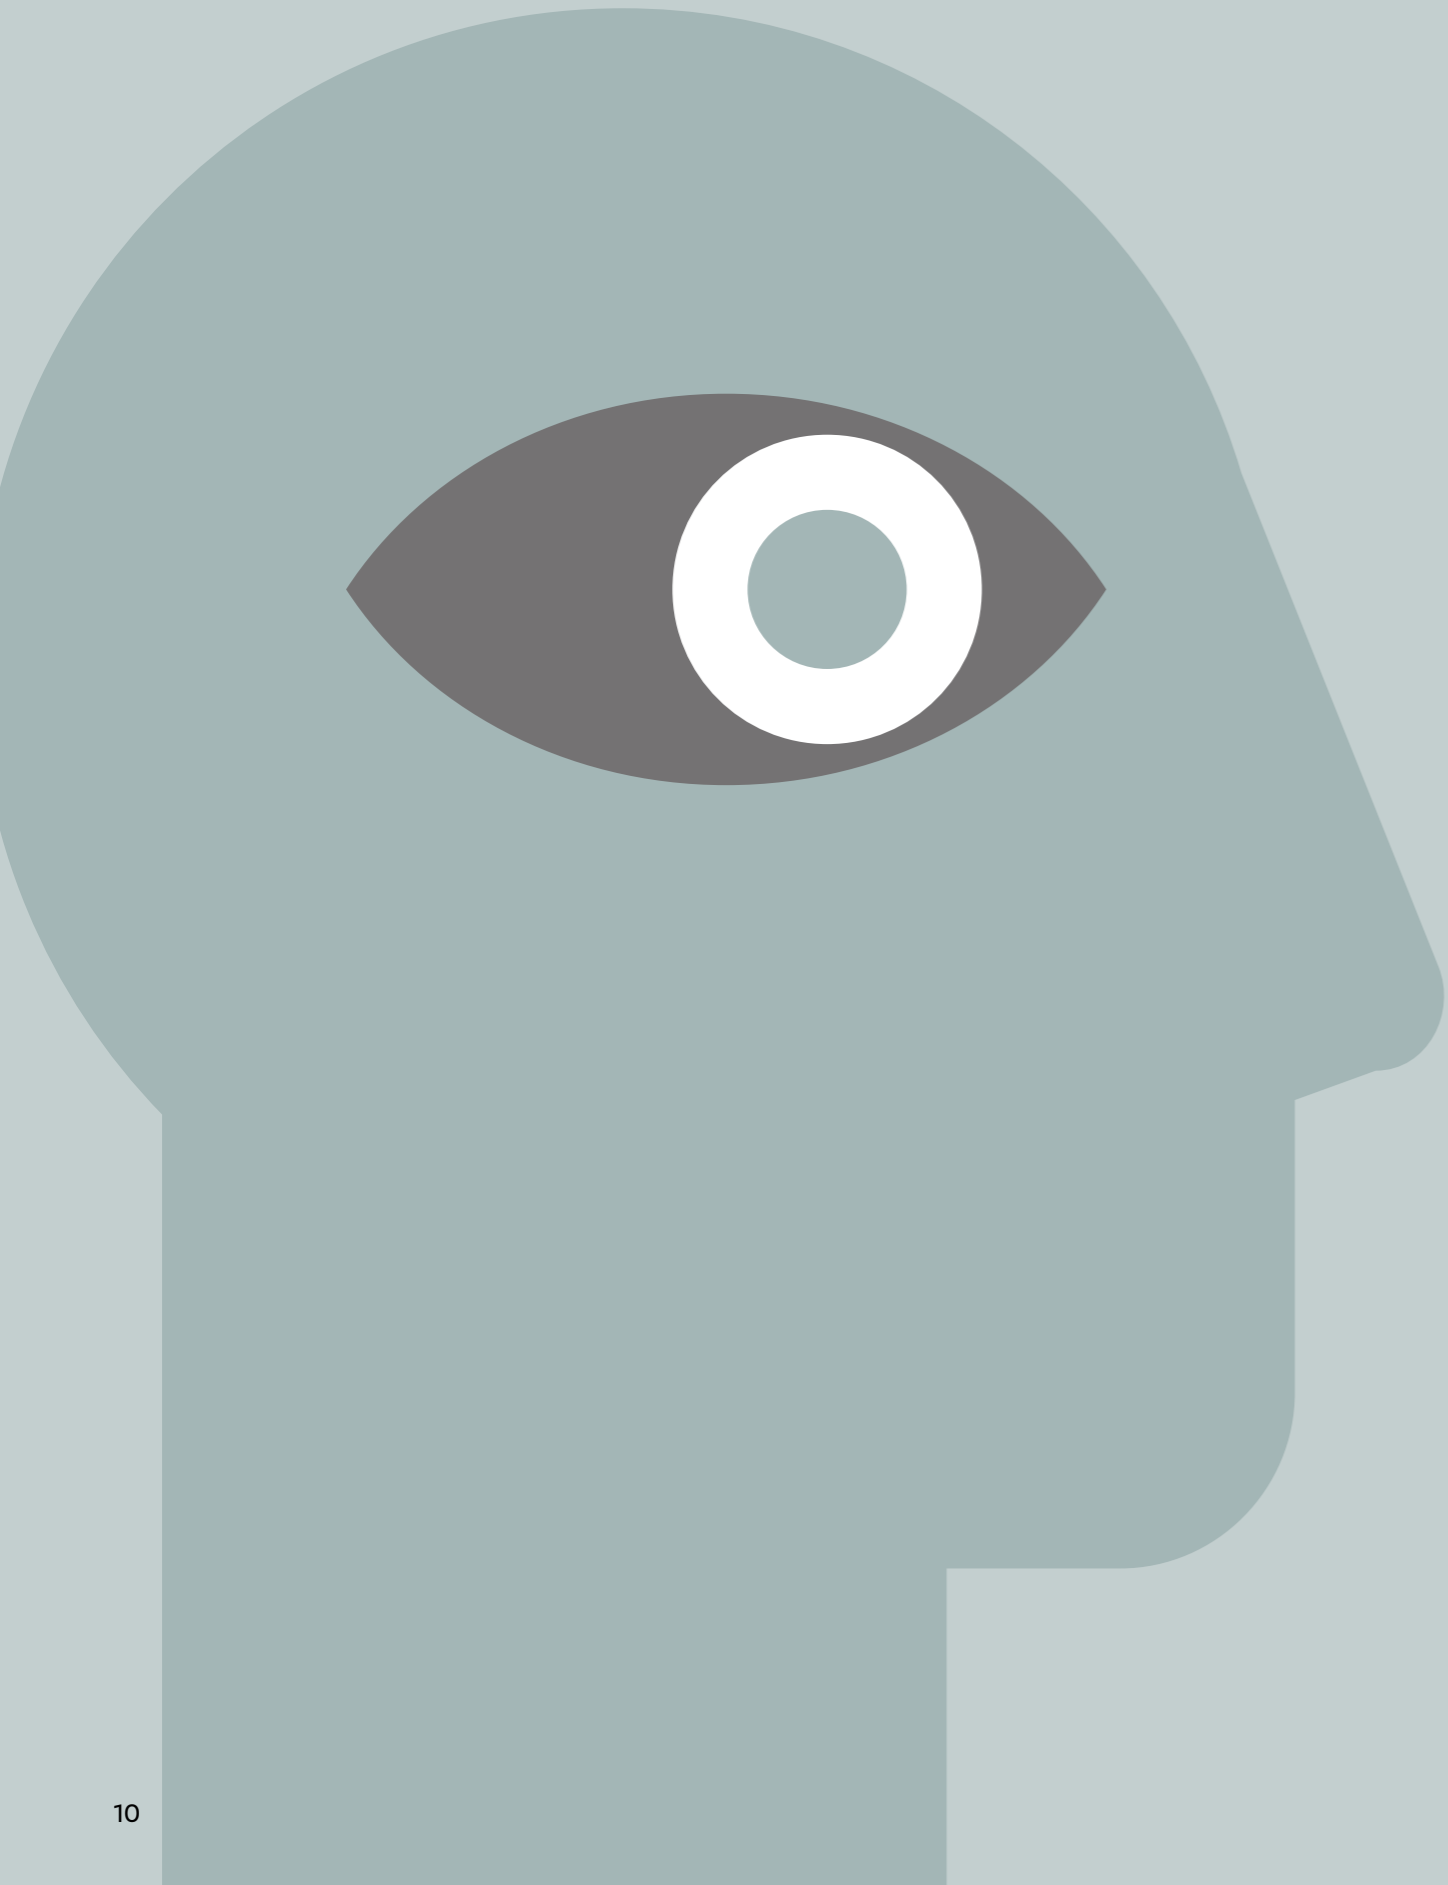

BS EN ISO 14001:2004

We continue to enhance our environmental performance by maintaining our BS EN ISO 14001:2004 accreditation.

Product Conformity

All products have been designed to meet the British performance standards, as follows:

- BS EN 527 - 1 : 2011 office furniture dimensions
- BS EN 527 - 2 : 2002 office furniture mechanical safety requirements
- BS EN 527 - 3 : 2003 office furniture stability and mechanical strength
- BS 5459 - 2 : 2000 office furniture stability and strength
- BS EN 1335 - 1 : 2000 office furniture, office work chair, dimensions
- BS EN 1335 - 2 : 2009 office furniture, office work chair, safety requirements
- BS EN 1335 - 3 : 2009 office furniture, office work chair, test methods
- BS EN 16139 : 2009 furniture strength, durability & safety - non-domestic seating

Tora

Tora is an accomplished sit-stand bench system designed to promote a healthy combination of sitting and standing during your work day. Built using high quality LINAK® actuators and a cable managed under-frame, Tora is a rigid yet highly flexible system.

Panel Finishes

Cabina

Cabina is designed around the need in the workplace for multiple alternative work settings within the office environment. It's acoustic enhancements cut down the consistent clamour that's so prevalent in the modern workspace.

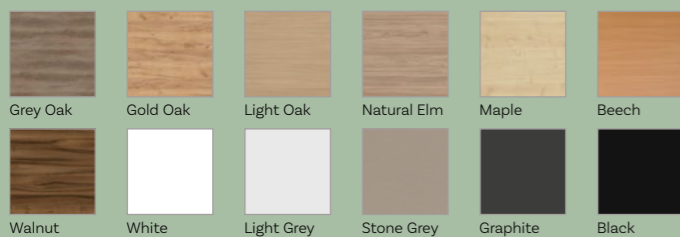

CBN-MBS8T-M & CBN-SBD6-M units

CBN-S-1XHR units

Top Finishes

Acoustic Performance

The Cabina panels use a timber frame construction with a sound absorbing acoustic foam internal and are upholstered in a foam backed fabric.

Tested and certified to an impressive 30dB noise reduction rating.

CBN-S-1XHR units

You imagine it, we make it!

Whilst the collection of off-the-shelf Cabina units in this buyers guide is extensive, you need not be limited by it.

Cabina is a made-to-measure system which can be customised to your bespoke requirements.

Taper

Taper is a family of solid Oak framed breakout units belonging to social and common spaces. Delicate 'tapered' lines make this slender design full of appeal.

TPT-168 table with White top

Croyd

With its chunky 'A' shape under-frame and thickset tops, Croyd exhibits a air of unmistakable boldness. Croyd's applications are numerous, whether the canteen or the open plan office.

Please Note: Not all fabrics are suitable for all products. Please ensure suitability when selecting a fabric for a particular item.

Moventi reserve the right to decline to upholster an item in a chosen fabric should it be deemed unsuitable for the application intended.

Contrasting Stitching

Contrasting stitching is available at no extra cost and must be specified at point of order.

Two Tone Fabric

Two tone fabric is where two different fabrics are used to upholster the same item. Where two tone fabric is required use the price for the highest fabric band selected and, if applicable, add the two tone fabric up-charge per item.

Alternative Fabric Suppliers

Moventi are able to source fabrics from other suppliers in addition to those listed above. Our alternative suppliers include:-

- Bute
- Kvadrat
- Panaz
- Vescom

Customer's Own Material

Customer's own material is usable subject to approval and compatibility. Please contact us for further details.
